Vince Scheerer
NRC/NRCES
9520 10th Ave S
Seattle, WA 98108

Dear Vince Scheerer:

Thank you for the updates to the NRC/NRCES oil spill contingency plan submitted on March 21, 2024.

Changes to NRC's plan include:

- Updated record of revisions, cover pages, approval certificate.
- New SMT roster and NRC contact information to reflect personnel changes.
- Updated NRC 24-hour contact number in Field Document and Chapter 2.
- Added WEMD phone number to vessel placard.

I added these revisions to the paper and electronic copies of the oil spill contingency plan residing at the Department of Ecology.

If you have any questions on this matter, please contact Kaitlin Lebon at 360-790-3273 or at kaitlin.lebon@ecy.wa.gov. Thank you for keeping your plan updated with the most current information. As always, we appreciate your partnership in protecting Washington's environment.

Sincerely,

Kaitlin Lebon
