9520 10th Ave. S
Suite 150
Seattle, WA 98108

Dear Stephanie Barton,

We are granting a 60-day extension to the expiration date of the NRC Oil Spill Response Plan. Your current plan will now expire on February 25, 2023. To ensure adequate time for Ecology to review and verify your updated plan, you must submit to Ecology a complete Oil Spill Response Plan no later than December 22, 2022.

If you have any questions regarding your oil spill response plan, please contact Kaitlin Lebon at 360-790-3273 or kaitlin.lebon@ecy.wa.gov. Thank you for working with Ecology as you update your plan. Your continued oil spill preparedness efforts play a vital role in protecting Washington's environment.

Sincerely,

Darcy Bird
Plan Development and Review Unit Supervisor
Spill Prevention, Preparedness, and Response Program
